

Capabilities Statement

Core competencies & capabilities

Several decades technical work experience provides the background to OMGANG’s unique services. From worldwide operational experience flying heavy jet transport aircraft, to senior leadership roles within the Department of Defense; from developmental flight test engineering, to many years experience in manufacturing engineering involving a major defense contractor in the DFW area, OMGANG’s technical services span a scale that few are able to match.

Past performance

- More than 11 years engineering experience (flight test / factory-based manufacturing)
- More than 30 years of operational aviation, aviation safety & regulatory experience
- Multiple leadership roles on award-winning teams

DOD: 20 years, US Navy retired (pilot)
 DCMA: 7 year Aerospace Engineer working with a major defense contractor in the DFW area

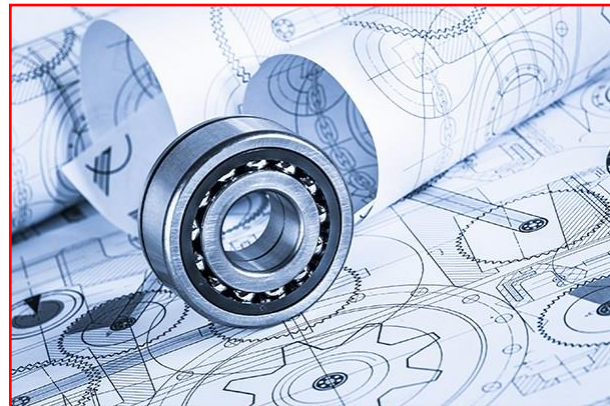

Differentiators

- Superior training and extensive operational experience combine into a highly focused skill set that only OMGANG is able to offer.
- Fundamentally sound business principles & ethics.
- *Deliberate, Analytical, Learner, Empathy, Harmony* - OMGANG’s Strengthsfinder* profile. A resume speaks to what one is capable of producing, these Strengths speak to whom OMGANG is *personally*.

Corporate data

Veteran-owned small business (100%). OMGANG fervently seeks to serve our clientele through continued pursuit of our foundational principles of being technologically sound, having passed root-cause analysis, and in accordance with industry best practices.
